ABOUT

Java Backend Engineer with 1+ year of hands-on experience building Spring Boot microservices and REST APIs in production environments, with a track record of delivering measurable engineering impact. Strong SQL skills with experience writing and optimizing complex queries. Familiar with CI/CD pipelines and JUnit-based testing practices. Strong foundation in DSA, OOP, and clean, maintainable code practices.

WORK EXPERIENCE

OpenText - Data Protector <i>Associate Engineer</i>	Bangalore, Karnataka March, 2025 - March, 2026
● Legacy Debugging: Diagnosed and resolved a legacy defect causing a specific backup type to fail, through systematic root-cause analysis — reduced execution time by 50% (~30 min → 10–15 min). ● Third-Party Compilation & Upgrades: Upgraded critical third-party dependencies (OpenSSL, libssh2, CURL, PostgreSQL) for compatibility with newer systems — recognized by manager and peers. ● ClientContext / Deployment Automation: Built a script-based file-transfer solution (Linux-to-Windows) for the ClientContext feature, triggered during product upgrades.	

OpenText - Core Compliance <i>Software Engineering Intern</i>	Bangalore, Karnataka October, 2024 - March, 2025
● Production Support & Triage: Diagnosed and triaged 6+ critical defects across multiple modules via systematic root-cause analysis prior to release, improving release stability. ● API Development: Implemented 10+ REST API endpoints in Spring Boot as part of a project to learn the framework, based on internal workflow requirements. ● Test Automation: Built Selenium automation across 20+ test scenarios, improving regression coverage and collaboration with QA teams.	

EDUCATION

Kalinga Institute of Industrial Technology Bachelor of Technology in CSE (2021 - 2025)	Bhubaneswar, Odisha
--	----------------------------

SKILLS

- **Primary Tech Stack:** Java, Spring Boot, REST APIs, Spring MVC, Hibernate, JDBC, Collections, Concurrency/Multithreading, Exception Handling, Agile/Scrum
- **Databases:** MySQL, PostgreSQL
- **Tools & DevOps:** Git, Jenkins, Docker (basic), CI/CD, JUnit, Maven/Gradle, Linux/Unix, AI-assisted development, Swagger, Postman.
- **Core Concepts:** OOP, Design Patterns, DSA.
- **Familiar / Secondary:** Python, C++, TypeScript, Angular, Selenium.

PUBLICATIONS
